

Kings and queens

Statutory Curriculum content

As Scientists we will

- Complete our seasonal observations and look at the features of winter.
- Record the weather conditions and interpret our results to draw conclusions.
- Find out about Everyday Materials and distinguish between objects and the materials they are made of
- Sort materials into categories.
- Perform simple tests, make predictions, observations and answer simple questions.

As Design Technologists we will

- Create Fabric Faces using a template and pieces of fabric.
- Discuss their ideas as they develop and say what their design has to do to achieve the design criteria.
- Create a fabric face that reflects their design using various techniques.

As Historians we will learn about

- Significant British monarchs in history
- Make a an in-depth study of Richard III
- Draw comparisons between Elizabeth I and Queen Victoria.
- Use timelines and make comparisons between various periods in history

As Computer scientists we will

- Develop our research skills using digital and non-digital sources
- Gain a deeper understanding of information sources including copyright and reliability.
- Use computer software to organise and present data and results
